Dick:

Thanks for the note. I certainly appreciate your concerns about WHO. Not much sleep for me lately. Just like internship.

Best regards,

Tony

Hi, Tony,

I am very distressed by the Face of the WHO. Their public face, their news updates, are of the quality of those of a third world country. I only hope that they function better than their news updates suggest. They need a world class public relations firm.

I am deeply concerned re Covid-19 in India (with a population of 1500 million) and Africa (population 100 million). News reports do not mention anything of this pandemic waiting to happen.

Hope that you are well and getting a good night's rest.

Best,  
Dick
