Gary:

If you have the resources and capability to do it, you should.

Best regards,

Tony

Subject: Testing for Covid-19

Just heard your CROI talk. Thank you so much.

Should we be testing for Covid-19 in patients with flu like symptoms in our Community Health Center by using commercially available tests for patients without history of travel or known contacts? We have two cases thus far in (b) (6) where my center is located.
