Hi Dr Fauci,

Hello from (b) (6)

I'm sure you are swamped. I'll be brief. I am CEO of the world's leading provider of dispensing equipment for the diagnostics market, BioDot Inc. We have been around for 25 years and provide enabling technology to virtually every rapid immunoassay and molecular diagnostics company in the world. We are actively involved today with companies around the globe to help commercialize lateral flow point of care products to help fight Covid-19. If there is anybody in your organization or on the task force that could help facilitate getting us involved with companies looking to produce tests - we are here to help! For example we are actively working with Biomedomics to get their LFD test into the community as fast as possible.

We will move heaven and earth to help the country in any way we can.

Thank you for all you have done and best of luck in fighting this pandemic
