Subject: RE: Redfield/Fauci nCoV op-ed

Attached is a tracked changes version and a clean version of what cleared the WH – they had a few sentences they would like to be added (which, in the tracked changes version, I have added comments to explain who suggested it and in some cases why), but almost all of these edits are non-substantive.

Assuming CDC and NIAID are good with these (feel free to modify the additions as needed), you all are good to pitch this as you wish – (b) (5)
