45 people. It will take 3 to 4 months to complete.

Thanks very much for the quick response.

Do you know at this stage when the phase 1 trial will be completed and how many people will participate in it?

Many thanks,  
Hanna

The phase 1 trial to determine safety for the mRNA vaccine platform that NIH is doing with Moderna is scheduled to start within 2 months (some time in April). However, this is just the first step in attempting to have a vaccine available for use. Even proceeding at an emergency speed, a vaccine would not be available for use for at least 1 to 1.5 years. It is characterized as a "vaccine".
