Dr. Fauci. This is Lei Harrison. In the coronavirus crisis, as a former (b) (6) I have been calm until now. No one can anymore after seeing the photos of the international airports today where hundreds if not thousands of people standing in line for 5-6 hours and realizing immediately the virus transmission will explode exponentially because of this. I strongly request:

1. Shut down the country NOW. Mobility has to be as low as possible. We have to do the very best RIGHT NOW to break the transmission chain.
2. Please talk to Dr. Zhong Nanshan (钟南山), the Chinese doctor and advisor during the coronavirus crisis. His advice and experience would be of tremendous value for the U.S. now.
3. So far, we've been acting in a reactive instead of proactive fashion. Not anymore. People need to realize that we are entering war time. We need to act fast, in light speed to beat the virus.
4. Healthcare workers need to most strongly protected- treat it as airborne if needed at the hospitals and pharmacies. Supplies of essential protective medical supplies for healthcare workers are equally important as supplies needed for the patients. Make sure supply chain from China is uninterrupted; and have American companies to start making masks, ventilators etc. Plan ahead.
