Dear Sir

We request you to spare a few minutes to read this email.

Abgenics is a life-sciences company (Abgenics Life sciences Pvt Ltd, www.abgenics.in) based in Pune, India conducting pioneering research in the area of drug discovery using camelid antibody against infectious diseases in the past 10 years. Abgenics Life Sciences was founded in 2010 and is managed by Anil Nahar (Entrepreneur) and Dr Sanjiban K Banerjee (Technical). Dr Banerjee has studied and lived in the USA for more than 7 y and worked in the area of infectious diseases all his life. He has conducted extensive research in the area of camelid antibody technology in USA. After returning to India and with an urge to help the people of India in area of infectious diseases. Dr Banerjee in association with Anil Nahar started this venture. Since then, the company has extensively worked and developed novel camelid antibody technology for various infectious diseases causing bacteria (Multi drug resistant) and fungus like Pseudomonas, Staphylococcus Aureus, Candida Albicans and other
