You may not read this until months from now as I know you are working tirelessly on the Coronavirus Task Force. I just felt the need to send you a quick note to thank you. Your expertise and presence during interviews and White House briefing has offered me so much comfort at such an anxiety ridden time. I have heard from so many friends and family members who feel the same way about you. Without your involvement we would be lost as yours is the most credible voice that we have come to rely on. Thank you for all you are doing for our country. We are all so lucky to have you. I pray that you and your family stay healthy.
