Subject: Offering help to fight the Covid-19

Dear Dr. Fauci,

I don't want you to waste too much time in this stressful situation.

As the doctor in charge of the hygiene of the Berner clinic in Crans-Montana in Switzerland, as well as being in contact with my colleagues in private practice, I see every day how important the need for information and consultation of the population in this situation of insecurity is. At the same time, we are under threat of a shortage of doctors if we have to strictly apply the federal swiss guidelines (Art. 10b and 10c, regulation 2 COVID-19) or if the wave of illness reduces the number of colleagues available for consultations.
