Subject: Coronavirus

Dear Dr. Fauci;

I live in (b) (6) Last week there was the first incidence of the Coronavirus. The officials in Media gave no true information on the individual but that it was a female. When questioned by the press as to the location in which the individual was - the response was that that information could not be given. I have also heard that it is in a violation of a person's privacy. No one is asking for the person's name or address. If the public were given the general area of the affected person they would probably stay clear of the area. The people directly in the area would be more cautious. Knowing where the person frequented, for example, the market would be pertinent in preventing spread of this virus. There is so much information about this virus that is unknown yet most officials continue to underscore the severity of this virus.

Sincerely,
Terri Davis
