Dear Tony,

1. I had planned to write to thank you for giving an interview (b) (6) for the Washington Post last month. Your generosity with time was 'all Tony,' and I did appreciate it. I was waiting for the chaos around you to subside before writing but....
2. Last evening I was asked to forward the message below to you. You might already know Jack Warren, Professor of Medicine and Infectious Diseases at U. Maryland (b) (6). As his email says, (b) (6) Samsung's venture capital group, which has an idea for a future, comprehensive surveillance system for COVID-19 (b) (4). It is interesting, but all I know is what I read in the power-point attached. I cannot imagine you would have time to look at it yourself, but perhaps it could be shared with other systems-oriented individuals working towards 'opening up' responsibly.
