Subject: Invitation to speak to the National Economists Club

Dear Dr. Fauci,

My name is Emily Sanchez and I am an economist at the American Chemistry Council. I am reaching out to you in my capacity as President of the National Economists Club (NEC), which is an organization of over 1000 government and private sector economists based in DC. The NEC holds weekly luncheon events which feature notable experts and economists in Washington.

Increasingly, economists are being asked to assess the economic impacts around the incidence and spread of the corona virus as well as the impact of reduced economic activity due to behavioral changes (e.g. people not leaving their homes to work or shop, supply chain disruptions, etc.). As economists are tasked in assessments, scenario planning and communicating their estimates, accuracy around their assumptions and understanding of the corona virus and Covid-19 is imperative. We are incredibly appreciate of the important work and research that the National Institute of Allergy and Infectious Diseases provides and we are wondering if you would be willing to speak at one of our luncheons about Covid-19 and the latest developments.
