Dear Tony,

please allow me to call you Tony as I feel somewhat close to you (although there is no reason why you should remember me). In early 1981 I was doing a clinical fellowship in Immunology/Oncology at Memorial Sloan-Kettering Cancer Center and wrote to you (b) (6)

(b) (6)
During my period at Memorial I worked extensively on AIDS and Kaposi's sarcoma... and ever since - I moved in 1988 to Spain, my home country - I have followed and admired your work.

(b) (6) I always felt close to you and your amazing work. Now, when I see you taking care of your country's action against Covid-19, I am proud to have been attracted and inspired by your work in biomedical research and I am proud of what we - physician-scientists - can do for your societies and for human beings.
