Update on condition of confirmed cases

To date, a total of 24 cases have fully recovered from the infection and have been discharged from hospital. Of the 53 confirmed cases who are still in hospital, most are stable or improving. Four are in critical condition in the intensive care unit.

[Ratio of hospitalized to ICU of 53/4 or ~ 13:1] Consistent with estimates in earlier email. [On Feb-12 Singapore reported that 8 patients were in ICU.]
