(b) (5) The best person in the world for this is Marty Cetron at the CDC. I am copying him on this e-mail. Perhaps he can directly get back to you.

Best,
Tony

Hi Tony,

See below from Deborah Rutter, the head of the Kennedy Center. (b) (5)

Who would you recommend at NIH or CDC to be a contact?

Francis

Subject: Infectious disease advice for NSO Asia tour

Dear Francis

As you may know, the National Symphony Orchestra has long had an Asia tour on its schedule for March this year, leaving in just two weeks or so. The China portion of the tour was cancelled a few weeks ago but the Japan portion of the trip has been sustained. Now, with increased focus on Japan, some of the members and our management are looking for additional advice on travel concerns and any infectious disease warning/direction. Would you have someone amongst your brilliant colleagues who could be a resource to our team?

I have included Gary Ginstling on this email as he is our Executive Director of the NSO. Thank you so much for any direction you can offer us!

Deborah
