Subject: Reporter working on coronavirus vaccine story

Hi Anthony,

I hope this email finds you well! My name is Amanda Morris and I'm a bioscience reporter at the Arizona Republic, part of the USA Today network. I'm reaching out because I'm currently working on a story about how some ASU researchers (Brenda Hogue, Bert Jacobs and Shawn Chen) are trying to develop strategies to make a vaccine against the new coronavirus as well as a general platform they can use in the case of future new coronavirus strain outbreaks in humans.

I know globally there are many researchers trying to develop a vaccine for this new coronavirus, and that the NIH is working with Moderna to do so – and hopes to start testing with in a few months. I'm wondering if I can talk to you over the phone and ask a few questions about the work that NIH is doing, and what the broader challenges are for developing a vaccine? I'd like to have broader context about vaccines for our readers.

Please let me know as soon as possible. You can call or text me at (b) (6) Thank you!

All my best,
Amanda Morris

Bioscience Reporter for The Arizona Republic
