Have we reached a time when it might be useful to prove who is immune to Covid-19? I understand that there is an antibody test already available. If we could identify who is already immune, we could then let those people return to daily life, work safely in essential positions, and feed the economy.

I practiced internal medicine in Cleveland, Ohio for (b) (6). I was amazed on a daily basis by the breakthrough that was PCR testing. Right now old-fashioned antibody tests might make a critical difference to us.
