Hi Dr. Fauci: I saw that you spoke about the lack of major drugmakers stepping up to make coronavirus vaccine, and my colleague James Paton is working on a story about that issue. James's story has to do with a biosecurity initiative related to these types of threats at GSK that was started in 2016 and quickly put on the back burner. I don't know whether you'd want to comment on the company or its activities itself, but would be helpful if you could talk about the importance of getting big drugmakers involved in helping to fill the need for new vaccines. I'm in Geneva right now at the WHO coronavirus science forum, but hope we can talk for a minute or two. Best way to reach me is via Whatsapp, where my number is (b) (6). Please let me know if/when you're free. Thanks and regards, JL

Sorry John. I am totally tied up right now and besides, I am completely hoarse and can barely speak. Let us try some other time.
