Dear Dr Fauci (Tony),

You may remember me from the early 90's as I was the inventor of nevirapine, the first NNRTi. We met several times at NIAID and FDA. I have since turned my scientific interests to cancer research and discovered and developed Velcade for multiple myeloma. And I have changed career paths again, turning to immunotherapy to treat cancer. I am currently the CEO of Gamida Cell with a focus on cellular therapies.

One of our programs is the expansion of allogeneic NK cells. We are collaborating with Dr Jeff Miller at the University of Minnesota and are administering 10-20 billion freshly expanded NK cells in combination with rituximab to patients with NHL. The results are stunning with 8/11 patients
